

Real Estate in Spain

Premium Google Sites Redesign — Build Blueprint

Design direction: understated Mediterranean luxury, international, architectural and trustworthy. The blueprint is based on the current published site and reorganizes its existing core themes into a more visual and conversion-focused structure.

Brand palette

Deep Navy	#0B1F33
Navy	#122D46
Champagne Gold	#C9A66B
Ivory	#F7F5F0
Slate	#253444

Homepage structure

1. Full-width hero: “Exceptional Property. Trusted Expertise. Spain.” + Explore Properties + Private Consultation
2. International-client positioning: “Local knowledge. International perspective.”
3. Four service cards: Premium Real Estate; Construction & Development; Renovation & Refurbishment; Property Oversight
4. Property section: opportunities selected around the client’s objectives
5. Selected locations: Costa Blanca; Costa del Sol; Alicante & Valencia — only where actually covered
6. Four-step process: Discover → Source → Coordinate → Complete
7. Final CTA: “Looking to buy, build or invest in Spain?”
8. Premium footer: company/contact/legal/privacy/cookies

Google Sites implementation

Use wide section layouts, large image backgrounds, restrained typography, dark navy blocks, champagne-gold buttons and generous spacing. Keep Arabic as a secondary line or dedicated Arabic page rather than placing long bilingual paragraphs everywhere. Use real property photography for actual listings and use generic lifestyle photography only for service/brand sections.

Final homepage copy

HERO

Exceptional Property. Trusted Expertise. Spain.

Premium real estate, construction and property services for international clients seeking to buy, build, renovate or invest in Spain.

INTRO

Local knowledge. International perspective.

Buying property or developing a project in another country requires more than finding the right address. It requires local coordination, clear communication and careful attention to every stage of the process.

PROPERTIES

Properties chosen around your objectives.

Whether your priority is a primary residence, second home, lifestyle property or an investment opportunity, the search should start with your objectives — not a generic property list.

CTA

Looking to buy, build or invest in Spain?

Tell us what you are looking for and we will help define the right next step.

Image sources

The visual concept references free-to-use Unsplash images identified during research. The accompanying IMAGE_SOURCES.md file contains the source pages, photographer names and locations. Verify current licensing terms before publishing.
